THE VOICE OF CONSCIOUSNESS

SELF-DISCOVERY

I am a witness of humanity, and despite our technological achievements and developments of large theories, we have not yet found the real meaning to our existence. An infinite potential, yet undiscovered, that lies at the heart of each of us longs to reveal itself. Not as an idea or belief, but as a living and present experience that results in an extraordinary life, that lies beyond the rational and limited understanding of our minds. We live in a time ready to blossom with mass awakening. My passion is to help make this happen and to make it happen soon.

INDIVIDUAL SESSIONS / GROUP (face to face or online)

The aim of these sessions is to provide guidance and clarity to people that would like to address personal issues, both in relation to everyday situations (relationships, conflict at work, addictions, etc.) and also more spiritual matters.

PROFILE MAGHAVAT

Master of Life and a Monk from the Ishaya Tradition, Maghavat's life is an example of overcoming life's dark obstacles. At fifteen years old, he was the victim of an attempted kidnapping incident, which ended with his father dying in his arms, and a future under the tutelage of his only remaining family member: his elderly grandfather.

His urge to find relief from this pain and the answers to so many questions, led to years of extremes and excesses with alcohol and drugs at an early age. At the age of twenty he took a radical turn when confronted with a teaching of Truth that showed him a sense of peace, acceptance and such clarity that he understood the purpose of his life: to help others recognize, experientially, their true nature from the point of view of spiritual awareness.

His extensive life experience has given him the ability to provide guidance and advice with great wisdom and compassion. His teaching is not based on spiritual concepts but a direct transmission from one Self to the other, taking the listener's hand and guiding the student's own self-discovery.

Master of the Self; Executive, Spiritual and Life Coach, for over ten years he has taught conferences, seminars and workshops in the UK, Spain, USA and Mexico in both Spanish and English. The author of several books, Maghavat has encouraged and promoted the formation of conscious groups as a social service. His experience has allowed him to share this teaching in many situations, from the ordinary to the extremes of maximum-security prisons and rehabilitation centers to name but a few.
